

SSO PROGRAM STATUS – MAY 2013

Program Highlights

- 108 active projects
 - 40 projects completed (over \$270M construction value)
 - 33 projects under construction (\$535M construction value)
 - 35 projects in design (over \$320M construction value)
- Over 350 different Program partners

Looking Ahead

The following projects are expected to advertise for construction bids during **2nd quarter 2013**. As projects are advertised for construction bid, they will be posted on the SSO Program calendar at www.brprojects.com.

Nicholson Drive–Highland Road–Perkins Road Phase B (09-FM-MS-047B): The project includes upsizing force and gravity mains in an area that extends north to the intersection of Jefferson Hwy and Tiger Bend Rd and south toward the SWWTP. Expected to advertise April 2013.

O’Neal Lane Pipeline Projects–Group A (10-FM-MS-0008A): The project involves upsizing gravity main in an area that extends north of Florida Blvd to the Monticello Subdivision and continues south to include the Shenandoah and Old Jefferson areas. This project consists of upsizing approximately 54,000 linear feet (lf) of force main pipe ranging from 6 to 42 inches in diameter and approximately 12,000 lf of gravity main ranging from 8 to 30 inches in diameter. Expected to advertise April 2013.

Airline Highway–Goodwood Blvd Comprehensive Rehabilitation Project (Phase 2) (11-AR-MS-0028): The project includes the rehabilitation of the sewer collection system in the area of Airline Hwy between Choctaw St and I-10 and is expected to advertise late May/early June 2013.

O’Neal Lane Pump Stations Projects–Group A (10-PS-MS-0050): Phase A project involves the upgrade of 17 pump stations ranging in size from 500 gallons per minute (gpm) to 22,000 gpm. The upgrades will work in conjunction with force main upgrades in the O’Neal Ln Pipeline Group A project to alleviate chronic SSOs at and near these pump stations. Expected to advertise June 2013.

Government Street–South Acadian Thruway Capacity Improvement Project (09-GS-MS-0043): This project includes the upgrade of gravity sewers near Government St between Foster St and Acadian Thwy to alleviate SSOs in the area and consists of upsizing approximately 9,800 lf of gravity sewer ranging from 12 to 27 inches in diameter. Expected to advertise June 2013.

South Boulevard–St. Joseph Street, Phase B Capacity Improvement Project (07-PS-BD-048A): This project consists of approximately 1,400 lf of new force main ranging from 24 to 30 inches in diameter along River Rd. It also includes approximately 2,500 lf of new 36 inch diameter gravity sewer pipe along South Blvd. Expected to advertise June 2013.

Antioch Road–Chadsford Drive Comprehensive Rehabilitation Project (City-Parish #TBD): The project includes the rehabilitation of the sewer collection system in the area of George O’Neal St between Jones Creek Blvd and the parish boundary and is expected to advertise June 2013.
