

Metro Airport (Group 1A) Gravity Sewer Area Upgrades

City-Parish #08-GS-UF-0053

Advertise for Bids: **4th Quarter 2010**
 Project End: **2nd Quarter 2013**

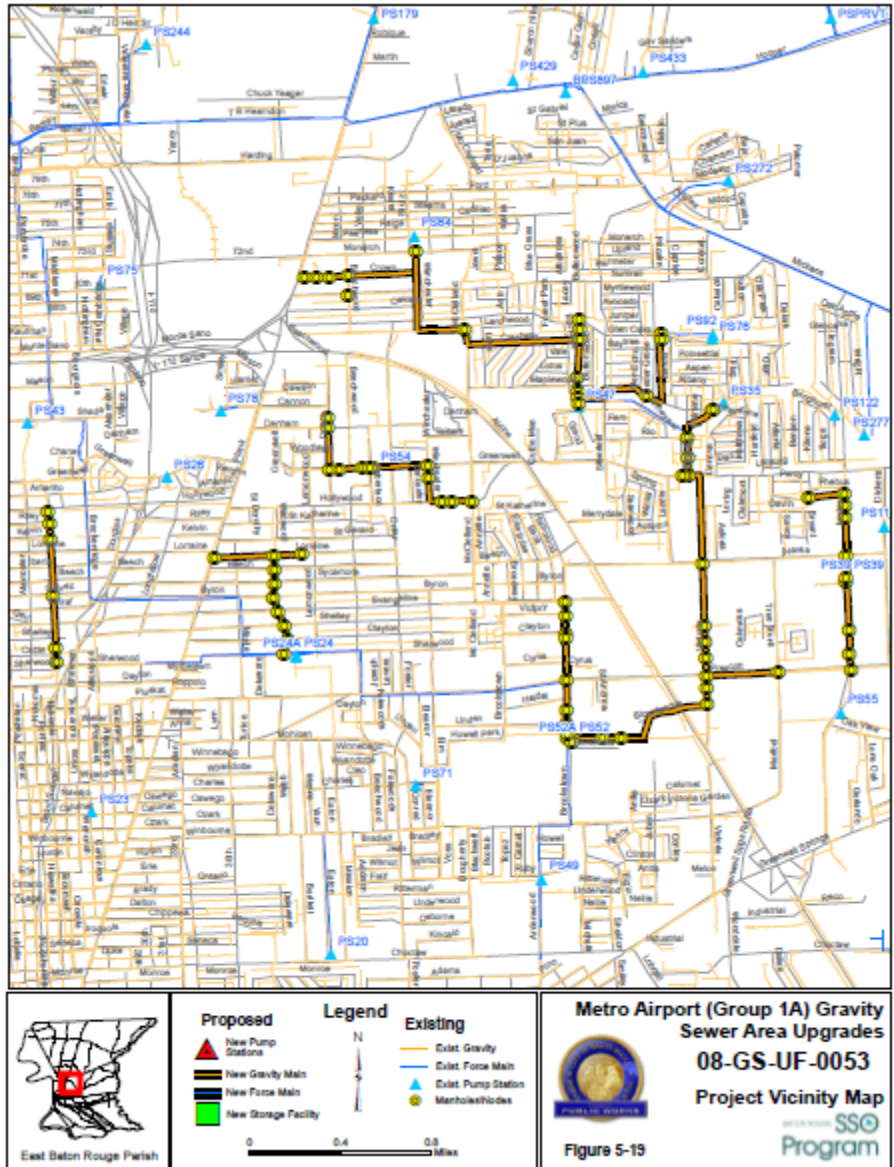

Group Project 1A includes upgrading portions of the gravity collection system located in the areas served by eight pump stations. The upgrades are designed to alleviate chronic SSOs in the collection system and at the pump stations, as well as increase the system capacity.

Manhole inspections provide insight into pipeline conditions in the project area.

Approximately 47,440 linear feet of new gravity main will be upgraded in the project area.
