

# Metro Airport (Group 1B) Pump Station and Force Main Improvements

City-Parish #08-PS-UF-0054

Advertise for Bids: **2<sup>nd</sup> Quarter 2012**  
 Anticipated Project End: **2<sup>nd</sup> Quarter 2014**

Group Project 1B consists of the replacement of seven pump stations, installation of one new pump station, and upgrading 35,330 linear feet, 8-30 in. diameter. This project will work in conjunction with the Group Project 1A gravity sewer upgrades to alleviate chronic sanitary sewer overflows (SSOs).

PS35 (located off of Maplewood Dr, between East Fairlane Ct and Flag St) will be upgraded to increase capacity.

A new 8-inch force main will be installed starting at PS277 (located east of the end of Wright Drive) and will run north for 3,124 feet.

The design of Group 1B project consists of upgrading approximately 35,330 linear feet of force main
