

Staring Ln Extension - Phase 1 (Burbank Drive - LA 42 to Highland Road)

City-Parish #06-CS-HC-0030

Advertisement for Bid: **3rd Quarter 2008**
Project End: **2nd Quarter 2010**

This project includes the construction of a portion of the new force main from the PS58 to the South WWTP. The construction of the direct force main from PS58 to the South WWTP alleviates the wet weather flows into existing downstream gravity pipe, and allows the capacity needed for future flows in the Staring Lane area. This project is being constructed simultaneous with the Green Light Plan's (GLP) roadwork.

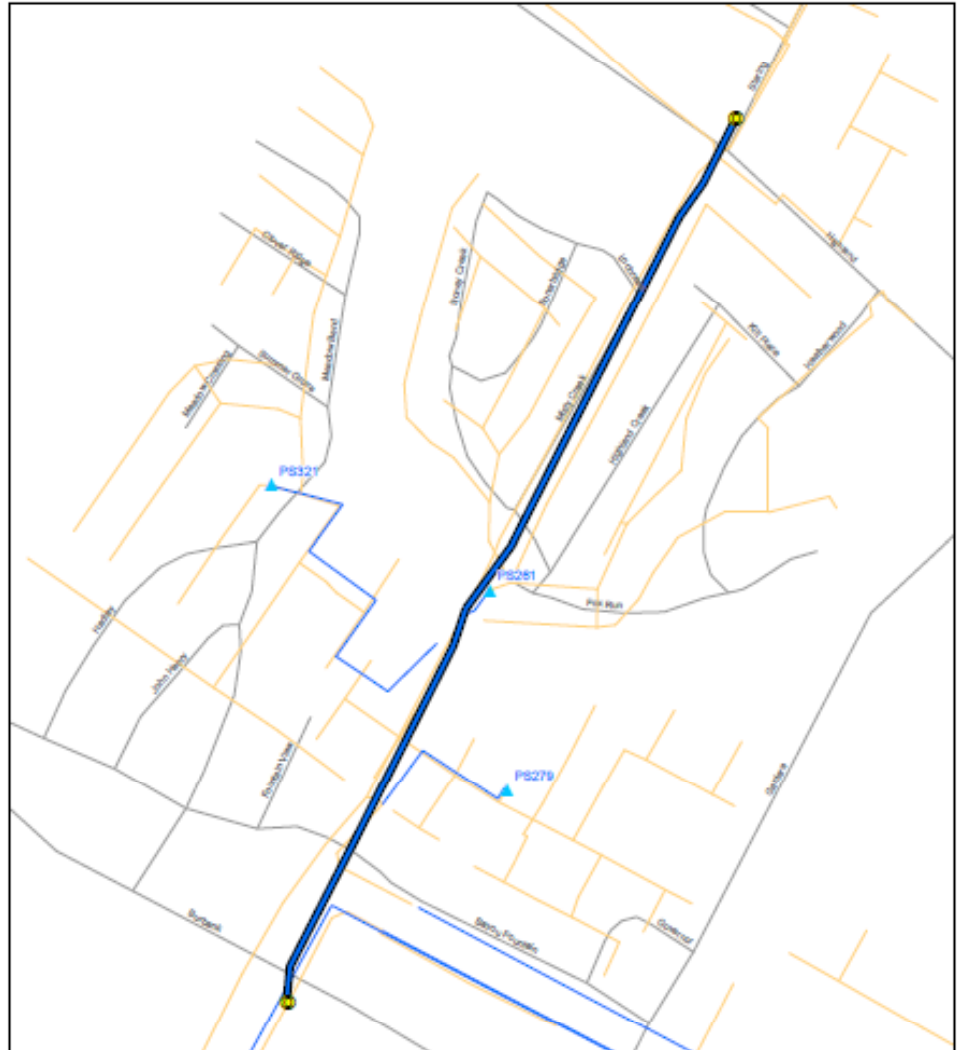

A fusing process is used to join two segments of the 64" HDPE pipe together.

The entry pit for the 64" HDPE pipe is installed using the HDD method.

Completing the first of two Horizontal Directional Drills under Burbank Drive in the Staring Lane Phase 1 project area.
